	Function: Leadership	Revised: 3-1-12
	Applies To: Corporate <input checked="" type="checkbox"/> UHC <input checked="" type="checkbox"/> MRC <input type="checkbox"/>	

OBJECTIVE: The forYOU Team goal is to help healthcare team members understand what is known about the second victim phenomenon and to support them through the recovery from such an event.

DEFINITIONS: Second victims are healthcare team members involved in an unanticipated patient event, a medical error and/or a patient related injury who become victimized in the sense that the team member is traumatized by the event. Frequently, these persons feel personally responsible for the patient outcome and may feel as though they have failed the patient, second-guessing their clinical skills and knowledge base.

POLICY: The forYOU Team is available to all University of Missouri Health System team members experiencing normal stress reactions to unanticipated patient events/outcomes. These staff members may be experiencing the second victim phenomenon.

The forYOU Team serves to:

- Increase institutional awareness of the second victim phenomenon;
- Provide consistent and targeted system-wide support;
- Support individuals/team members following unanticipated events;
- Provide additional resources for leadership and management teams.

GENERAL INFORMATION:

1. Team Overview

The forYOU Team Support Team provides a form of ‘emotional first aid’ specifically designed to provide crisis support and stress management interventions for health care events that are emotionally challenging and stressful.

2. Team Structure

A. Coordination of team activities is the responsibility of the Office of Clinical Effectiveness (OCE) – Patient Safety and Risk Management and Patient leaders.

B. Team structure consists of the following:
