

## Things to Consider for your Advisory Committee:

- Who needs to be part of the Advisory Committee?
  - Someone from Senior Leadership
    - CNO – Chief Nursing Officer
    - CMO – Chief Medical Officer
  - Representative from
    - Surgery
    - Medicine
    - Frontline nursing
    - Pharmacy
    - Human Resources
    - Marketing/Communications
    - Social work
    - Chaplaincy
    - Security
    - Patient/Family Relations
    - Risk Management
    - Lab Services
  
- Who will be responsible for doing an environmental scan internally and externally of what supports are in place and available?
  
- What type of program will work in your facility?
  
- Where will your support program be anchored?
  
- How much will it cost to start and maintain a support program?
  
- How will you choose your Peer Supporters?
  
- Who will do the training of your Peer Supporters?
  
- How often should we meet with the Peer Supporters? (monthly, quarterly)
  
- How will we support the supporters?
  
- How will we measure effectiveness of our support program?
  
- How will we market and communicate about the support program?
